OBJECTIVE

Recent Computer Science graduate from UTSA with a concentration in Cybersecurity, seeking an opportunity to contribute technical knowledge and strong problem-solving skills in a professional environment. I bring hands-on experience in scripting, database management, and web development, along with a genuine enthusiasm for technology and learning. I'm eager to grow within a collaborative team, support IT operations, and take on real-world challenges that help me build a long-term career in tech.

SUMMARY OF QUALIFICATIONS

- Programming proficiency in C and Java
- Proficient in web development using HTML, CSS, and JavaScript
- Skilled in SQL for database querying, optimization, and management
- Comfortable with remote system administration via SSH
- Understanding of core cybersecurity concepts and threat analysis
- Reverse engineering experience through academic coursework
- Strong communication and problem-solving skills
- Effective collaborator with independent work ethic
- Fast learner with high adaptability to new tools and system

EXPERIENCE

Volunteer, Adopt-A-Beach, Galveston, Texas August 2011 – Present
